

AESTHETIC LASERS & INTENSE PULSED LIGHT

Physics, Applications, Safety

www.cosmeticlaseracademy.com

ENROLLMENT INSTRUCTIONS

This is an online self-study training program. The course is an overview of aesthetic lasers and IPL as well as qualifies the student to perform the duties of a Medical Laser Safety Officer. Once tuition is paid, the student will be able to obtain or download the following:

- Link and password to the online course
- Course instructions
- Registration Form
- Client Intake Form
- Course syllabus

The course contains a review of each chapter along with access to the answer key. The review is not required for completion, however, for those who wish to pursue CMLSO credentialing with the Board of Laser Safety, review of Part IX is highly recommended in preparation for the CMLSO exam and certification.

The program includes a Client Intake Form that can be downloaded, printed, and implemented within private practice and can be utilized for client assessment.

Upon completion of the course material, the student must complete and submit the Registration Form and email to cosmeticlaseracademy.edu@gmail.com.

Once the Registration Form is received, the student will be awarded with an authentic Certificate of Completion within 2-4 weeks.

*For CMLSO credentialing, please review the Board of Laser Safety eligibility requirements.
